EDUCATION

- **Kafrelsheikh University** Kafrelsheikh, Egypt
Bachelor's Degree in Computer Science – Information Systems *Aug 2020– June 2024*

EXPERIENCE

- **AI Proctor** Cairo, Egypt
Front-End Developer *Jul 2023 - Jan 2025*
 - Refactored and optimized a legacy front-end codebase, enhancing performance, maintainability, and efficiency.
 - Engineered a secure web-based online examination system with AI-driven proctoring, including identity verification and real-time monitoring of video, audio, and user activity.
 - Integrated real-time data exchange using MQTT and Socket.IO to support live exam supervision and instant system responsiveness.
 - Developed a comprehensive exam creation and management system with diverse question formats, multimedia support, file uploads, and intuitive drag-and-drop organization.

VOLUNTEERING

- **GDSC** Kafrelsheikh, Egypt
Vice Head of Web Committee *Sept 2022 - Jun 2023*
 - Led front-end learning initiatives by mentoring beginners, delivering recorded sessions, and designing hands-on tasks and assessments to build strong foundational skills.
- **IEEE** Kafrelsheikh, Egypt
Front-End Developer *Sept 2021 - Jun 2022*
 - Collaborated with a front-end team to develop and enhance the IEEE Kafrelsheikh Branch website, delivering responsive and user-friendly interfaces.

PROJECTS

- **Teams Maker** (*Graduation Project*) : Led the front-end development of a dynamic single-page platform empowering students to build teams, showcase skills, and collaborate on graduation projects seamlessly. Leveraged Vue.js, Vite, and Vuetify to deliver a fast, modern, and highly responsive user experience. Enabled end-to-end project workflows—from team formation and proposal submission to final project showcasing and community evaluation.
- **Clinic Manager**: Developed a scalable single-page application using Vue.js for a clinic management system to efficiently handle patients, sessions, doctors, payroll, and system activity tracking. Implemented real-time functionality using Socket.IO, enhanced development speed with Vite, and integrated pagination to ensure smooth and efficient data handling.

PROGRAMMING SKILLS

- **Languages**: Javascript, Typescript, SQL, HTML/HTML5, CSS/CSS3
- **Technologies**: Node.js, Express.js, Vue.js, Vuex, Pinia, Vite, bootstrap, TailwindCSS, Sass
- **Databases**: MongoDB, MySQL
- **Tools & Libraries** : Git, Github, npm, Vite, WebSocket, Mongoose
